

## RTITB Trainers Guides & Equivalent ABA Codes

Please see below a current list of RTITB Trainers' Guides, with the relevant ABA (Accrediting Bodies Association for Workplace Transport) category in which this covers. If you wish to deliver training on a truck that is under an ABA code that is not covered by one of our Trainers Guides, please contact the Accreditation Team on [accreditation\\_team@rtitb.com](mailto:accreditation_team@rtitb.com) to discuss before delivering any training so that we can find the best solution for you and your business. If the ABA truck category is not within one of our guides as listed below, please contact us as specific approval will be required.
