RTITB TrainingMate App

Go 100% paperless

The RTITB Training Mate App allows you to go completely paperless in your Driver CPC training administration. It removes the need to print any paperwork, including attendance forms, registration forms, and feedback forms. You'll make a saving straight away, with less printing and administrative costs. Going 100% paper free can also help to meet your company's sustainability goals.

Benefits of using the CPC TrainingMate App

Simplify and speed up administration

Designed to give time back to you and to help Instructors spend more time delivering training, and less time on admin.

Benefits of using the CPC TrainingMate App

Once uploaded, the app automatically creates the Driver CPC paperwork in a PDF format and sends this to the Instructor. You can store this information electronically and no longer need to spend time sending RTITB your records.

The app also offers peace of mind. It captures and stores everything electronically, all in one place.

Benefits of using the CPC TrainingMate App

Keep track of Driver CPC hours

With the App's timer function, you can record the exact start and end times of your Driver CPC training, as well as breaks. This can help you easily record those all-important seven hours of training time.

We Are Committed | We Are Confident | We Challenge
